INTRODUCTION

- **Famalo is ultimate Telegram Bot Companion, providing a range of features to meet your diverse needs**
- **Whether you're a student, professional, or simply looking for entertainment, Famalo has something for everyone**

AIM

To create a telegram bot with 'telebot' framework that can do various tasks. A bot with multiple features which can be very useful in real-life and also some fun features that cheer you up.

CURRENT SYSTEM STUDY

1. Open a web browser
2. Search for your desired feature
3. Find a website from the ocean of links
4. Open a website
5. Sign up with that strange website
6. Share your private information(like email)
7. Wait for OTP verification
8. Log in
9. Pay a plan if needed(more information like credit card)
10. Complex use of website if user is new
11. Time waste in understanding the layout of that website
12. If that website doesn't do what you wanted, do all these again with another website

GAP BETWEEN CS AND PS

1. Open FAMALO chat interface from telegram
2. Input your feature as a text message
3. Famalo will detect the feature
4. Done

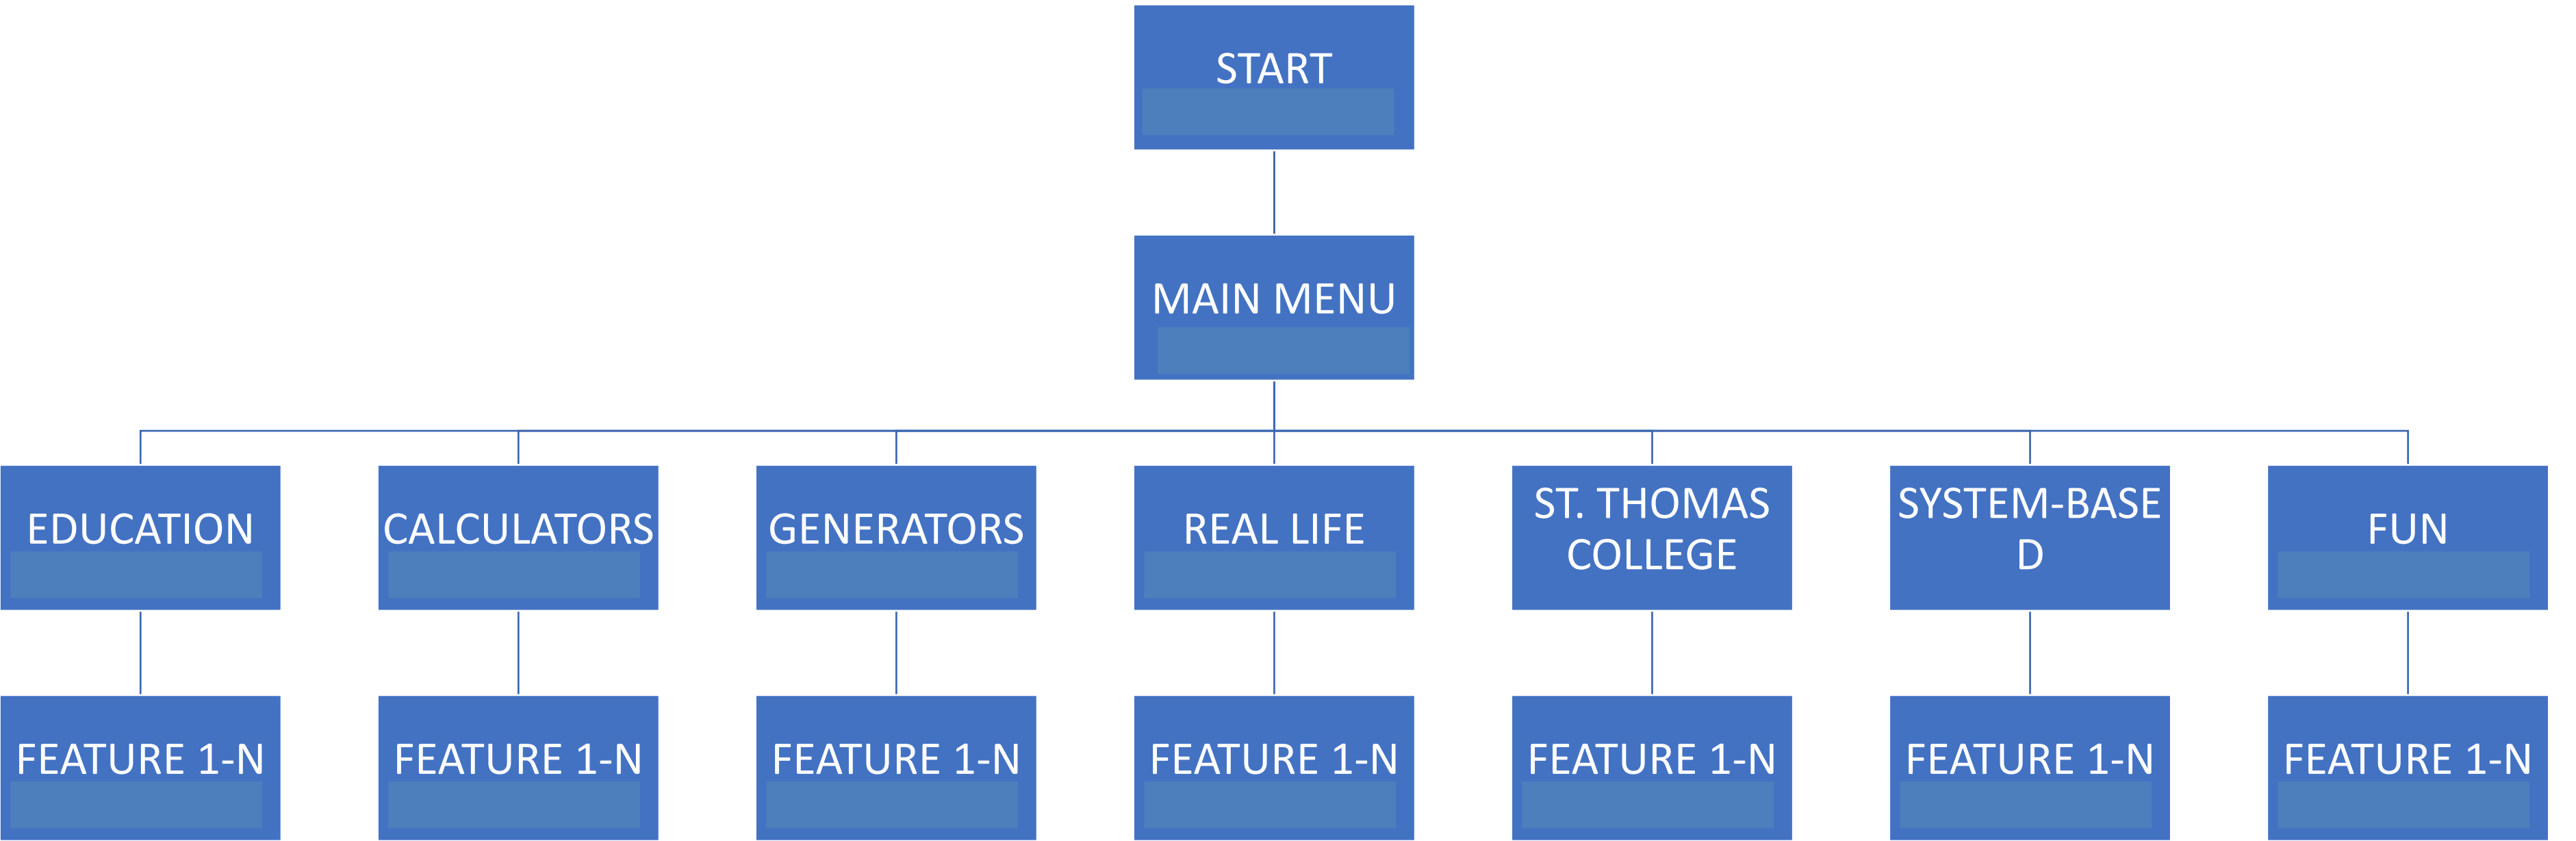

ADVANTAGES

- **Friend like interactions**
- **Quick access**
- **A chat platform which is easy to use and get used to.**
- **Reduce boredom**
- **Complex features simplified**

DISADVANTAGES

- A lot of features ,which may be overwhelming
- Commands in telegram at first may be confusing to use for newbies
